5 January 2026

Dear Valued Customer,

I am very pleased to announce that GEO Specialty Chemicals UK Ltd ("GEO"), has been acquired by Enact, a fund managed by private equity firm Endless LLP, from our previous parent CPS Performance Materials Group.

Endless LLP is a leading private equity fund manager in the UK, with offices in London, Leeds and Manchester. Since its inception in 2005 Endless has invested in over 100 companies and aims to be a 'transformational investor', working alongside management to enhance their performance through a combination of capital investment and hands-on operational and strategic support.

It remains very much business as usual, and your contacts remain the same. Our legal entity, banking details and our terms and conditions are unchanged and all orders and agreements will remain in force.

We are committed to providing you with the same level of service and quality that you have come to expect from us and look forward to continuing to work with you. If you have questions, please feel free to contact your account representative directly.

Yours sincerely

A handwritten signature in dark ink, appearing to read "S. Haythornthwaite".

Simon Haythornthwaite

Managing Director

GEO Specialty Chemicals UK Limited
